

An Appeal to Establish Begampura Khalsa Raj

Dear Bahujan Dravida Voter Brothers and Sisters,

Our forefathers tried to establish democracy in the country to save the people and natural resources from the controlling exploiters behind the facade of democracy.

Adopting the principle of “ONE MAN – ONE VOTE” & “ONE VOTE – ONE VALUE” in this post-colonial to be aspired democratic system, they empowered the electorate to elect the central government and entrusted the central government with the responsibility of ending the “Social and Economic Inequalities” prevailing in the country.

The dignity of every Indian a birth right endowment deserves a level field for eradicating social and economic disparities. We the people of India has the right to a Central Government that serves to promote fundamental human values such as Equality, Liberty, Fraternity and Justice for the people of the country.

Thus far, the Central Government that has been elected seventeen times by your precious vote has failed to deliver the natural rights of the people. Now for the eighteenth time, The Central Government is up for the Parliamentary Elections – 2024. This is our chance to wrest control of our freedoms and dignity.

So, before using your Right to Vote emotionally this time, please think hard on this question: Have the rulers of the ruling parties for the last 75 years tried to reduce the gap of social and economic inequality in the country? Obviously, the answer is resounding NO.

Have these political parties worked to establish human values such as equality, freedom, brotherhood, and justice among the people of the country? Obviously, the answer is NO. Indeed, for the last 75 years,

Manuvada parties like BJP and Congress have been working to strengthen Brahminism and Capitalist Dictatorship in the country under the guise of democracy.

Both political parties have failed miserably in resolving the social and economic inequalities that exist in the country today. And they continue to look the other way. In their vocabulary there is no such thing as equality, freedom, fraternity, and justice. Humanity is dead. As a result, the majority (Bahujan Dravidians) of the country's population continue to be afflicted with severe problems such as Casteism, Communalism, Religious Terrorism, Poverty, Hunger, Malnutrition, Illiteracy, Unemployment and Deadly diseases.

When our people talk about their problems, the Manuvada rulers use their money, media, and mafia to trap most people in caste, religion, and religious politics.

This political strategy is called “Ramraj” by the BJP and “Swaraj” by the Congress Party. This power and greed of the elite for the elite has divided the country into many broken pieces.

BJP's forceful imposition of Hindi – Hindu - Hindustan on the multi linguistically oriented regionally and culturally diverse Indians has crippled the nation. This has badly fractured the embracing bonds of spirituality and acceptance as per the doctrines of the spiritual gurus and bhagats of our great lands. The alienating attitudes of the BJP and the predecessors at the Centre for prioritizing political greed over common good has encouraged the increasing demand for separate breakaway states in many parts of the country.

Thus, the unity and integrity of our country is once again facing a major threat due to the dictatorship of these Brahminism prone capitalist rulers and their greedy controllers/operators.

In the last five years, Manuvada parties like BJP and Congress have collected thousands of crores of rupees from their capitalist friends in the name of “Election Bonds.”

Now these parties are trying to use this collected money to mislead you and corrupt you while procuring your votes. So, you should be on high alert in this Lok Sabha election against these parties.

Bahujan Dravida Party has been working for many years with a mission named “*BEGAMPURA KHALSA RAJ*” an optimum emancipation and transformation of society for a greater progress in sharp contrast to BJP's exploitative conspiracy of “RAM RAJ” and “SWARAJ” of Congress Party.

“Begampura Khalsa Raj” means "Freedom Raj Without Sorrow." It is a plan for the blossoming of humanity through the blessings and teachings of great Gurus like Guru Ravidass, Guru Kabir, Guru Nanak, and Guru Gobind Singh— (sons of the soil) who lived and sacrificed for the betterment of humanity.

The Gurus' “Beghampura Khalsa Raj” means a system of governance in the country without caste-based discrimination, without class-based discrimination, without economic discrimination, without religious terrorism, and without injustice and atrocities. No one should be unemployed, everyone should have access to quality education without discrimination, food should be available to everyone, clean water should be available to all, sanitation should be free, shelter should be ensured for everyone, decent clothing should be provided to everyone, responsible modernization and industrialization should be encouraged. Unregulated GST will be abolished. Equality, freedom, fraternity, and justice will be established in the country, Legal aid will be guaranteed to all and access to broader security will be ensured. All the people of the land shall roam “without fear or distress”

Guru Nanak preserved this great vision of Guru Ravidass and Guru Kabir in the *Guru Granth Sahib*, and the Sikh Gurus after him worked to realize this dream. Mahatma Jyotiba Phule, Chhatrapati Shahuji Maharaj, Periyar, Narayana Guru, Chand Ghatke Baba, Swami Achuthananda, Harishand Thakur, Karpuri Thakur, Ayankali, Birsa Munda, Sir Chotu Ram, Babu Manguram Mungobalia, Dr. B.R. Ambedkar, Captain Jaipal Singh Munda and Bahujan leader Manyawar Kanshi Ram Saheb also made efforts to realize this dream of the Gurus.

Today the vision of our elder noble souls, is being championed by Sardar Jeevan Singh leader of the the BDP, to realize this “Beghampura Khalsa Raj.”

Sardar Jeevan Singh declares “In our restored democratic system, we can easily fulfill this dream of our Gurus and Bahujan Leaders by properly exercising our right to vote.”

“The war to establish true democracy is a war between reason and sentiment.”

“Both "Ramraj" and "Swaraj" are related to sentimentalism. "Begumpura Khalsa Raj" is related to the rational thought.”

Utilizing Emotions as virtue these two Manuvada parties have ruled for the past 75 years with this sentiment at its core. Whereas our Rational thought is stable, and it can enrich more to benefit the masses.

Jeevan Singh Jee extols “We assure you that Begumpura Khalsa rule will be a rational democracy by the people for the people and of the people.”

So, please realize the value and strength of your vote this time in the Lok Sabha elections. Ignore the Brahminical-capitalist forces of BJP-Congress - AAP candidates and establish “Begampura Khalsa Raj” in the country.

Cast your valuable votes for Bahujan Dravidian Party candidates and win with a huge margin.

(Note: To make this great dream of the Gurus and Bahujan Leaders come true, we need your VOTE along with the NOTE. So, if you can do your part to support us, then please extend financial support to war with the Capitalist Corporate Manuvada Forces. Thank you!)

In Guru's Mission of Begampura Khalsa Raj
